

## Sharon Base, BSN, RN, DOH-RN

---

### Short Professional Biography:

Sharon Base, BSN, RN, DOH-RN, is a distinguished registered nurse specializing in multiple sclerosis care. At Burjeel Multiple Sclerosis Centre, Abu Dhabi, she delivers exceptional patient care and drives improved healthcare outcomes. Known for her leadership and clinical expertise, Sharon is passionate about patient advocacy, healthcare education, and advancing nursing practices through certifications and research.

### Brief Description of Your Project:

**Project Title:** Evaluation of Cognitive Function in Multiple Sclerosis Patients Using BICAMS at Burjeel MS Centre

This study aims to assess cognitive function in patients with Multiple Sclerosis (MS) at the Burjeel Multiple Sclerosis Centre using the Brief International Cognitive Assessment for MS (BICAMS). It will examine the prevalence and patterns of cognitive impairment and explore correlations with disease duration, disability status, and demographic factors. The cross-sectional study will involve 50 MS patients and utilize BICAMS tools to evaluate processing speed, verbal memory, and visuospatial memory. Findings are expected to enhance the understanding and management of cognitive deficits in MS.
